

SNA EARTHQUAKE RESPONSE – SITREP #4 for JUNE 2023

The following report outlines the humanitarian responses of Syrian NGO Alliance (SNA) members during June 2023, encompassing both the general response and post-earthquake response. The report focuses on three sectors: Education, Nutrition, and

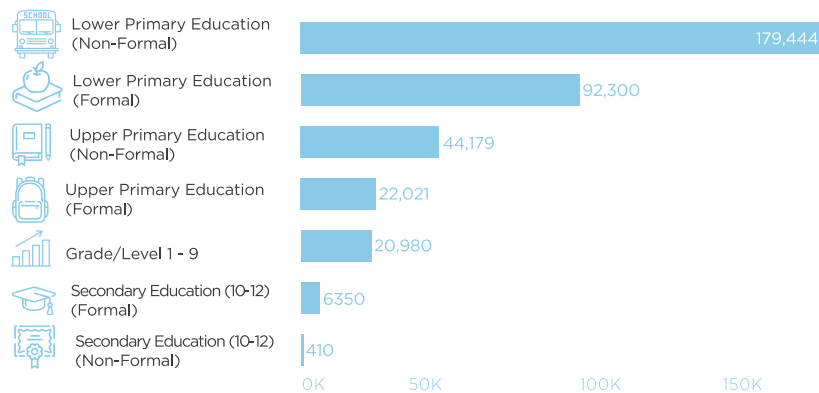

Protection. For data regarding responses from the Early Recovery, FSL, and WASH sectors, please refer to SitRep 5. The footer of each sector contains the list of SNA members who provided response data for this report.

EDUCATION

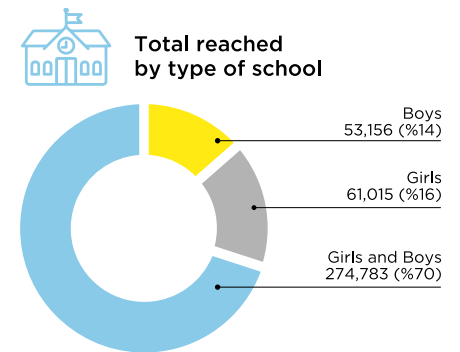

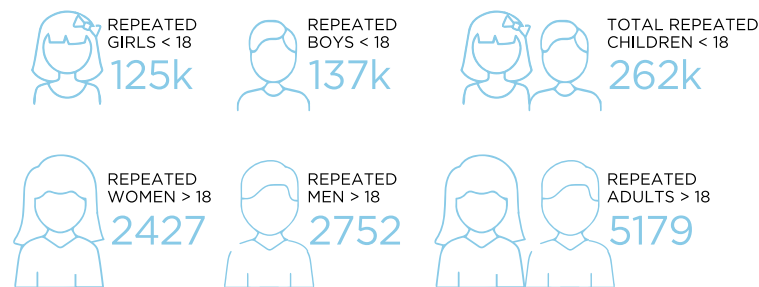

- In June 2023, SNA members achieved a successful implementation of education programs in Idleb and Aleppo. The reporting members reached a significant number of **117,458 new** children, comprising **56,750 Boys**, **60,708 Girls**, across various age groups. This shows a significant surge in comparison to the May figures, where only 8,341 new students were reached.
- 262,664** repeated children were reached (**137,405 Boys**, **125,259 Girls**).
- The activities took place in **394** schools and **64** camps.
- The primary modality of the project activities was in-classroom, providing Formal and Non-formal education.
- The services primarily targeted internally displaced persons (IDPs), accounting for **202,728** individuals, followed by host community members (**36,713**) and individuals with mixed backgrounds (**129,084**).

Total reached by level of education

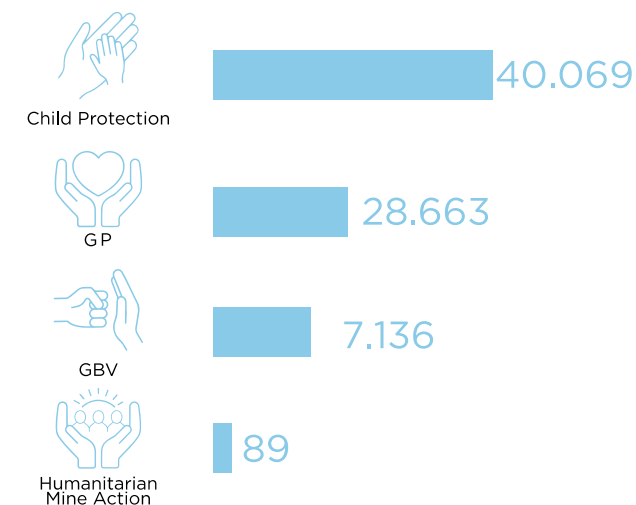

Number of beneficiaries varied by age and gender, with the new and repeated beneficiaries

PROTECTION

- SNA members responses are categorized under the Areas of Responsibilities (AoR) umbrella: Child protection, Protection, Gender-based violence (GBV), and Mine Action (MA).
- SNA members have reached a total of **100,942** beneficiaries through protection activities during June. The main beneficiaries include a combination of IDPs and host communities.
- Support provided in response to the recent earthquake reached 28,800 beneficiaries (**28.53%** of the total reached). The main activities included awareness raising, distribution of dignity kits, providing psychosocial support, and offering in-kind materials assistance. Remarkably, the number of beneficiaries experienced a substantial increase, with 8,178 more recipients compared to the previous month of May.
- In addition to activities targeting communities, members have offered protection services in **37** collective shelters, ensuring that the needs of the displaced and homeless are not overlooked. This represents an increase compared to May, when services were provided in 16 centres.

Total reached by sub-sector

Total # of beneficiaries reached by age and gender

Girls 0-4	5221	Girls 5-11	24K
Female 12-17	4591	Female 18-59	24K
Boys 0-4	6157	Boys 5-11	22K
Male 12-17	5165	Male 18-59	16K

GBV

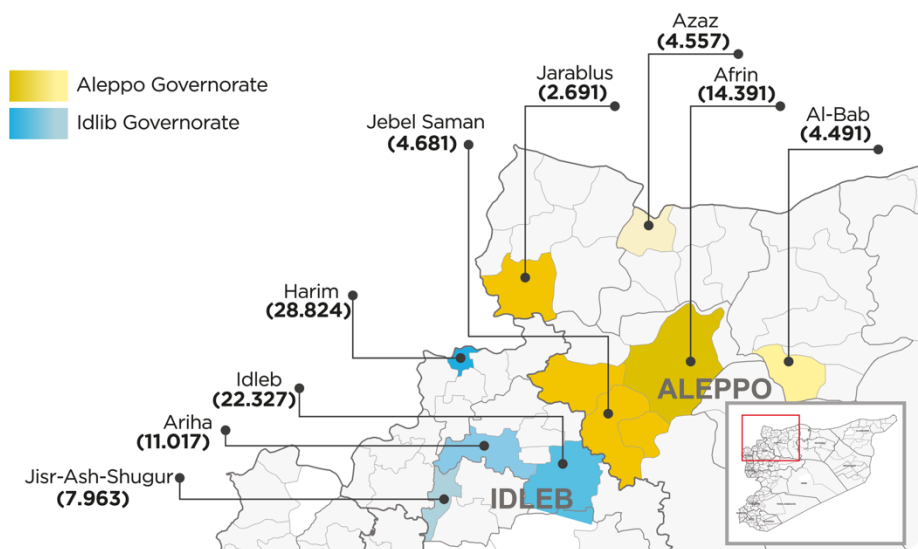

Sum of - Girls 0-4	0	Sum of - Boys 0-4	0
Sum of - Female 5-11	44	Sum of - Male 5-11	22
Sum of - Female 12-17	433	Sum of - Male 12-17	186
Sum of - Female 18-59	5108	Sum of - Male 18-59	1319

Protection

Sum of - Girls 0-4	486	Sum of - Boys 0-4	453
Sum of - Female 5-11	2154	Sum of - Male 5-11	2428
Sum of - Female 12-17	1555	Sum of - Male 12-17	1637
Sum of - Female 18-59	10,783	Sum of - Male 18-59	9006

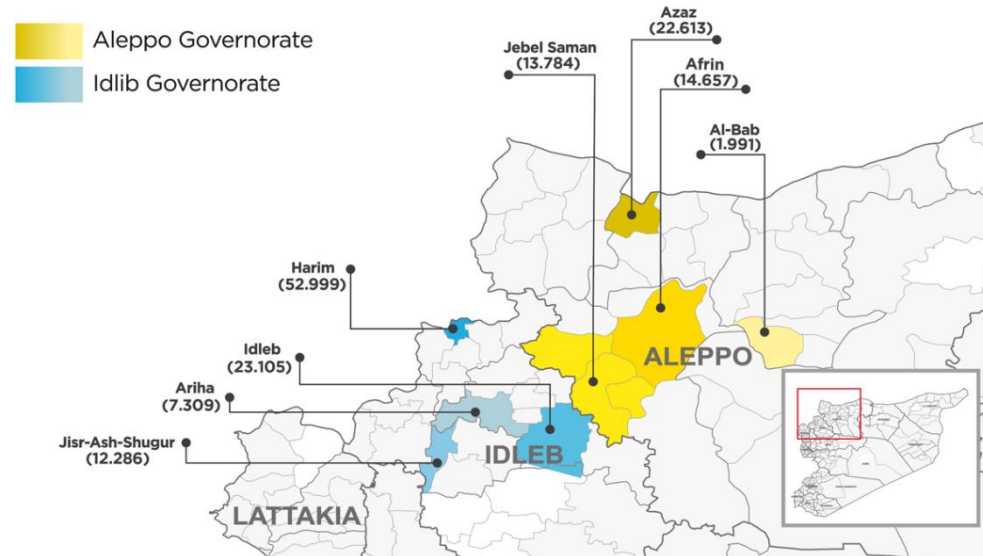

Child protection

Sum of - Girls 0-4	190	Sum of - Boys 0-4	180
Sum of - Female 5-11	12,728	Sum of - Male 5-11	14,302
Sum of - Female 12-17	2485	Sum of - Male 12-17	2929
Sum of - Female 18-59	4568	Sum of - Male 18-59	2812

NUTRITION

- Interventions aimed to address severe acute malnutrition (SAM) and moderate acute malnutrition (MAM) among boys and girls. The program successfully reached an overall count of nearly **154,000 beneficiaries**, encompassing both follow-up cases and new recipients.
- Services were delivered at health facilities as well as via rapid response teams, focusing primarily on screening and referrals. Family Mid-Upper Arm Circumference (MUAC) measurements, Infant and Young Child Feeding (IYCF) practices, Blanket Supplementary Feeding Programme, Micronutrients Supplementation, Community Management of Acute Malnutrition (CMAM), and various nutrition-related activities were part of the programming.
- The project also provided support to pregnant and lactating women (PLW) to tackle MAM among them referring those with MAM for further assistance. As a result, **11,516 pregnant women and 20,089 lactating women** were reached through this intervention.
- Progress was noted in recoveries, with **763 males and 2,116 females** reported as having improved nutrition status. Nonetheless, challenges were also encountered, including the unfortunate loss of 2 female beneficiaries and some cases where recipients didn't recover as anticipated or defaulted from the program.
